

## Let's Fit You With a Corset That Will Give You Greatest Comfort and Satisfaction

Buying a Corset is on a par with buying a pair of shoes. Unless the shoes fit you, it matters not what price you've paid; they are practically worthless. If you buy an uncomfortable Corset, not alone are you continually reminded that it is uncomfortable, but you can never get your clothes to fit the way you want them to.

And that is why we say, "Let's fit you with a Corset that will give you the greatest comfort and satisfaction." The salesperson in charge of our Corset Department has studied the Corset problem and knows just which model to recommend for your particular figure. You might decide to buy a long-waisted model, merely because it looks good on a form, but it may not be the model best suited to your figure. We will tell you just which model you should purchase, in order to get the greatest comfort and improve the fit of your garments.

### New Front-Laced Corsets from \$2.00 to \$8.00

It is only in recent years that the Front-Laced Corset has become so very popular, and if you've worn one you will know just why. The Gossard Front-Laced Corsets are made on scientific lines. They are made to give the wearer the greatest comfort, yet moulding the figure to prevailing fashion tendencies. What is more, a good fitting Corset has much to do with your good health.

These Front-Laced Corsets are made of White or Figured Batiste, and they are well boned. Do not bind the body at any point of contact.

### New Model Corsets from \$1.00 to \$3.00

While we do not attempt to say that these Corsets are equal to the higher grades, yet we will say that they are fashioned along the same lines. They are made of good quality Coutil or Batiste. Have low bust and long hip lines. These lace in the back.

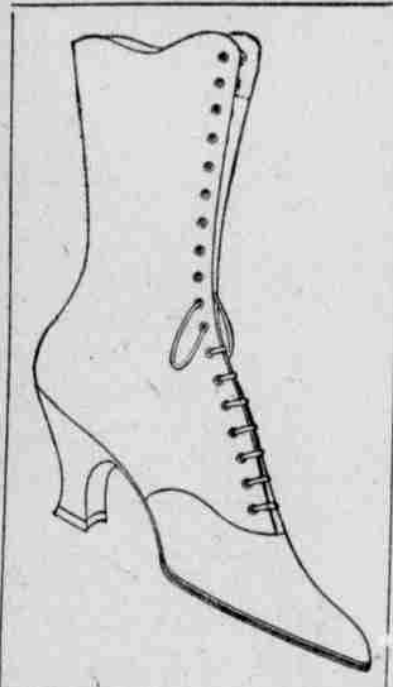

### New Brassieres from 50c to \$2.00

Made of exceptionally good materials and trimmed with Laces, etc. We specialize on such makes as Gossard, DeVoise and Ovida.

The student body was largely represented also, as many of the pupils who are some distance from home when in Barre preferred to spend a part of the Memorial day recess with the track team.

Diversion for passerby and sustenance for those who pause to purchase is offered in an ingenious popcorn and roasted peanut vender recently installed at G. M. Marriotte's corner tobacco store. All of the mechanism of the apparatus is automatic and except for the vender who wraps the corn or peanuts in air tight receptacles no one needs to tend the machine. Electricity propels the device and gas heat is generated to roast the peanuts. The machine, which arrived from the factory in this country, is similar to the popcorn vender installed in the lobby of the Park theatre last winter and is one of a few devices of its kind in operation in Vermont.

Miss Beatrice Mann was tendered a miscellaneous shower at her home, 115 Orange street, last evening when some thirty of her girl friends invaded the house and conveyed to the hostess her first inkling of what was about to take place.
